

MPENDULO MNCWABE

Electrical Maintenance Technician • Ref: APP-2026-000015

Address: 88 Substation Road, Durban, KZN, 4001 | Phone: 000 000 0000 | Email: mpendulo.demo@example.test

PROFESSIONAL SUMMARY

Qualified and safety-focused Electrical Maintenance Technician with comprehensive technical expertise in low-to-medium voltage electrical infrastructure, fault diagnosis, distribution board wiring, electric motor maintenance, and municipal lighting systems. Skilled in executing preventative electrical maintenance schedules, lock-out/tag-out (LOTO) safety protocols, and SANS 10142 compliance testing.

CORE COMPETENCIES

Fault Diagnosis & Troubleshooting

Circuit continuity testing, earth leakage testing, short-circuit tracing, and control panel fault identification.

Distribution & Wiring

DB board installations, three-phase power balancing, circuit breaker sizing, and cable jointing.

Motor & Control Gear

DOL starters, star-delta starters, relay logic, contactor replacements, and motor insulation testing (Megger).

Safety & Compliance (OHS)

SANS 10142 regulations, Lock-Out/Tag-Out (LOTO) procedures, isolation protocols, and compliance logging.

WORK EXPERIENCE

Electrical Maintenance Assistant (Demo Role)

Jan 2025 – Present

Ethekwini Energy & Infrastructure Hub • Durban, KZN

- Execute scheduled electrical maintenance across municipal substations, administrative offices, and water pump stations.
- Perform insulation resistance testing, thermal imaging checks, and phase balance measurements on main DB boards.
- Troubleshoot and replace faulty contactors, thermal overload relays, and automated municipal street lighting controls.
- Ensure 100% compliance with Lock-Out/Tag-Out (LOTO) safety measures during all live panel isolations.

Junior Electrical Apprentice (Demo Role)

Jan 2023 – Dec 2024

Coastal Power Systems Maintenance • Durban, KZN

- Assisted senior electricians with commercial rewiring, cable tray installation, and conduit bending.
- Tested and replaced high-bay industrial lighting fixtures, ballast units, and emergency power backup batteries.
- Maintained daily electrical maintenance logs, job cards, and spare parts inventory reports.

EDUCATION & QUALIFICATIONS

National Diploma in Electrical Engineering (Heavy Current)

2021 – 2023

Durban University of Technology (Demo Profile)

Key focus: Electrical Machines, Power Electronics, Protection Systems, Industrial Automation, and Electrical Protection.

National Senior Certificate (Matric)

2019

Durban Technical High School (Demo Profile)

Passed with distinction in Mathematics and Physical Sciences.

CERTIFICATIONS & PROFESSIONAL ACCREDITATION

- **Electrical Trade Test Certificate (Artisan Red Seal)** – Completed November 2024 (EWSETA Ref: DEMO-ET-8841).
- **SANS 10142 Wiring Code Regulations Certificate** – Completed 2024.
- **High Voltage Safety Isolation & LOTO Certification** – Completed 2025.
- **First Aid & Electrical Shock Response Certification** – Valid through 2027.

KEY TECHNICAL ACHIEVEMENTS

- Diagnosed and resolved a critical pump starter panel fault within 45 minutes, restoring primary water booster pumps.
- Participated in the full electrical retrofitting of 4 municipal admin facilities, improving energy efficiency by 18%.
- Maintained a zero-incident safety record across 2+ years of electrical installation and maintenance activities.
